

INSTRUCTIONS FOR COMPLETING THE REQUIRED IMMUNIZATION FORMS

Mail or fax forms two weeks prior to registration for classes to allow time for processing and data entry.

Address: University Health Center
The University of Georgia
55 Carlton Street
Athens, GA 30602-1755

FAX: University Health Center
706-542-4959

Certificate of Immunization – Required (page 1)

- A. It is the policy of the University Health Center to comply with the mandatory immunization program established by the Board of Regents of the University System of Georgia. These requirements include documented proof of immunity to measles, mumps, and rubella, varicella (chicken pox), tetanus, and hepatitis B, prior to registration at any college or university within the University System. No temporary clearances are given to allow registration without meeting these requirements. Please note that dates of immunizations and titers with results are required. The physician or other healthcare provider must sign the form. Any request for consideration of exemption must have signed documentation attached.

Tuberculosis (TB) Screening Questionnaire – Required (page 2)

- A. Complete the form, answering the four questions and signing. Country of birth must be circled if indicated.

Tuberculosis (TB) Risk Assessment – Required if risk noted on TB Screening Questionnaire (page 3)

- A. Complete Section A. Patient Section.
- B. A physician or healthcare provider must complete Section B.
- Persons with any identified risk factors must receive either one Mantoux tuberculin skin test (TST) or have a blood test drawn for Interferon Gamma Release Assay (IGRA).
 - The form and results must be evaluated and signed by a physician or healthcare provider.
 - This TB Risk Assessment form must be completed prior to the first day of classes, and no longer than 30 days after the first day of classes. Information provided must be dated no more than one year prior to the first day of classes.
 - Eligible students may choose to complete the TB Risk Assessment on site at the University Health Center (UHC) once on campus in Athens. Fees are charged for the TST, IGRA, chest x-ray and sputum test at UHC.

****TST Interpretation guidelines**

>5 mm is positive:

- Recent close contacts of an individual with infectious TB
- Persons with fibrotic changes on a prior chest x-ray consistent with past TB disease
- Organ transplant recipients
- Immunosuppressed persons: taking > 15 mg/d of prednisone for > 1 month; taking a TNF- α antagonist
- Persons with HIV/AIDS

>10 mm is positive:

- Persons born in a high prevalence country or who resided in one for a significant* amount of time
- History of illicit drug use
- Mycobacteriology laboratory personnel
- History of resident, worker or volunteer in high-risk congregate settings
- Persons with the following clinical conditions: silicosis, diabetes mellitus, chronic renal failure, leukemias and lymphomas, head, neck or lung cancer, low body weight (>10% below ideal), gastrectomy or intestinal bypass, chronic malabsorption syndromes

>15 mm is positive:

- Persons with no known risk factors for TB disease

CERTIFICATE OF IMMUNIZATION (REQUIRED)

REQUIRED IMMUNIZATIONS	REQUIREMENT	REQUIRED FOR:
MMR (Measles, Mumps, Rubella) combined shot	• 2 Doses #1 _____ / _____ / _____ #2 _____ / _____ / _____	• Students born in 1957 or later
